Upcoming Virtual Demonstrations of New 3D Scanning of *Minnehaha*

Technical issues at MLM's Sept. 26th Annual Meeting foiled plans to demonstrate the 3D scan tool, so it will now be presented virtually with a choice of two date/time options. The demo will take you into different parts of the boat and give you an overview of its capabilities. Conducting the demo virtually has the advantage of allowing those unable to be in-person at the Annual Meeting to also attend.
